

Year 6 Maths Targets

Australia/Oceania

1. I can mentally add and subtract negative numbers up to two digits.
2. I can read, write and convert between standard units of metric measurement (length, mass, area, volume) using decimal notation to up to **3** decimal places.
3. I can read, write and recognise the place value of each digit in any number up to **10,000,000** including decimals, to **3** decimal places, and multiply and divide numbers by **10**, **100** and **1000**.
4. I can round any number to a required degree of accuracy.
5. I can use % for comparison and calculate % of whole numbers and measures e.g. **15%** of **360**.
6. I can recall and use equivalences between fractions, decimals and percentages.

Antarctica

- 1a. I can multiply up to **4** digit numbers by **2** digit numbers using long multiplication using standard written methods.
- 1b. I can divide up to **4** digit numbers by **2** digit numbers using long division using standard written methods.
2. I can multiply pairs of proper fractions, proper fractions by whole numbers and divide proper fractions by whole numbers.
3. I can use place value to compare and order numbers (inc. decimals, measures and any size of integer) using the language of greater and less than, and the following symbols: $=, \neq, <, >, \leq, \geq$
4. I know the order of operations and can apply this correctly to carry out calculations involving the four operations.
5. I can add and subtract mixed numbers and fractions with different denominators.
6. I can compare, order and convert between fractions, percentages and decimals.
